

# ALLU TRANSFORMER DL-SERIES.

[ALLU.NET](http://ALLU.NET)

# WHY USE TRANSFORMER?

## IT TRANSFORMS...

### YOUR EFFICIENCY

Providing a one stop shop process! Screen, Crush, aerate, mix and load your materials. With the added features of changeable drums and adjustable blade sizes, ALLU DL Transformer provides you maximum efficiency.

### YOUR PROFITS

Increase your sustainability credentials and profit in the process!  
Less material to a landfill means less expenditure. Reuse the material on site, so there is no need to purchase virgin material. Recycle and utilize the left-over materials and generate an income from it.

### YOUR GREEN CREDENTIALS

Less material to be transported to the jobsite means a reduction in fuel consumption. Less materials to a landfill and efficient utilization of waste materials supports sustainability.

### YOUR MACHINES

Your excavator, wheel-loader or skid-steer will transform into a multifunctional tool that will screen, crush, aerate, mix, load and pulverize all in a one-step operation - the ALLU Transformer screener crusher.

## APPLICATIONS.

- TOPSOIL SCREENING
- COMPOSTING
- AERATING
- AGRICULTURAL PROCESSING
- LANDSCAPING
- WASTE AND DEBRIS PROCESSING

# ALLU TRANSFORMER FEATURES & BENEFITS.

DL-series Transformer is an easy and simple but still strong and reliable screening attachment. The DL-series make the perfect attachment for landscaping and agricultural applications. From composting to aerating, topsoil screening to waste and debris processing, all can be carried out on-site.

## HOW IT WORKS.

### PHASE ONE

- Start

### PHASE TWO

- Screening & crushing of material
- Normal drum rotation
- Optimal material flow and circulation
- Approx. 1/2 of full bucket

### PHASE THREE

- Reversed drum rotation
- Approx. 1/4 of full bucket

## STRONG & RELIABLE

- Motors placed inside the frame to avoid any damages from the outside
- Lubrication inside the chain boxes ensure long transmission lifetime

## EFFICIENT

- Produces homogenous end product
- High production even with wet materials
- Quick and easy to maintain
- Screens material without back and forth rotation
- Self-cleaning design (TS)

## VERSATILE

- Suitable for excavators, wheel loaders, tractors and telehandlers
- Can be mounted to an excavator both as backhoe and as front shovel
- Changeable drum cassette
- Handles many different materials - also wet ones
- Changeable wear parts & adapter plates
- Patented construction and details
- Screen, crush, mix, aerate and load in 'one step operation'
- With changeable drums, and doubling of blade sizes, giving you maximum output and flexibility.
- Worldwide sales and service network

# ALLU TRANSFORMER DRUM & TOOL OPTIONS.

## ALLU TS DRUMS & BLADES.

### TS Screening drum

- Changeable blades
- Change of fragment size without dismantling drums

### TS Standard blade

For all screening applications.

### TS Crushing drum

- Changeable blades
- Change of fragment size without dismantling drums

### TS Axe blade

For crushing applications.

### TS Screening & Crushing drum

- changeable blades
- change of fragment size without dismantling drums

### Combi blade

For screening and crushing applications.

## ALLU X DRUMS.

### Stabilising, mixing, aerating and crushing (X50)

- changeable drums

# ALLU APP.

Transform your efficiency and safety with ALLU App. The ALLU App provides an intelligent digital solution for customers and operators to obtain accurate and timely information regarding safe operations at job sites, thereby maximizing the use of the ALLU equipment.

### YOUR PRODUCTIVITY

- Notify about the need for maintenance or replacement of wear parts - minimize the downtime
- Real-time guidance for working angle ensures efficiency

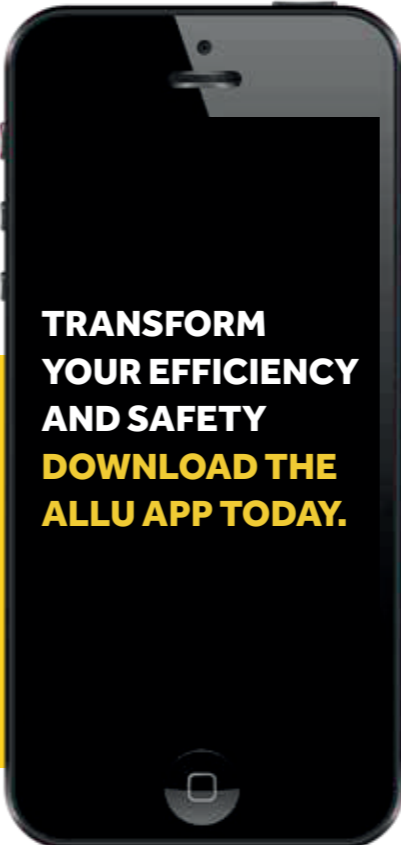

### YOUR SAFETY

- Obtain accurate and timely information regarding safe operations at job sites

### EFFICIENT CUSTOMER SERVICE

- Receive quick answers to frequently asked questions (FAQs)
- Check the right spare parts and accessories for your product
- Check the warranty information of your product
- Locate your closest ALLU distributor

Search for ALLU on the App Store or Play Store, or scan the QR code to get started.

SWECON SIA based in Riga, Latvia is selling a wide range of ALLU attachments that enhance the performance and versatility of excavators, loaders, and other earthmoving equipment. SWECON provides sales and rental solutions for ALLU's unique attachments, as well as complete aftermarket service and spare parts. SWECON is a leading supplier of state-of-the-art construction machinery in Europe, offering a wide range of flexible solutions and services that make life with machines as effortless and enjoyable as possible.
